

XT20 XTRAINER

The XT20 is a total body workout machine that combines independent lower and upper body resistance, which has been proven to provide better training results than any other cardio product.

KEY FEATURES

- Bi-directional or bilateral independent upper body motion/resistance
- 270 degree rotational handles provide a variety of training options and include fingertip controls for both lower and upper body resistance
- Comfortable 6-position reclining seat back
- Unique step-through design allows easy access
- Dual drive system allows user to set upper and lower body resistance independently
